Experience

Jaguar Land Rover Interaction Designer
Sep 2023 - now ▪ Gaydon, United Kingdom

- Designing in-vehicle HMI for future Range Rover and Defender models.
- Leading the design of Instrument Cluster, HUD, haptic feedback, and entry/exit interactions, ensuring compliance with ISO safety standards and regulations.
- Collaborating with engineers, developers, and product owners to ensure seamless integration between flows and HMI with signals and vehicle states.
- Supporting DesignOps initiatives, managing Figma libraries and documentation.

Mercedes-Benz UX Designer
Oct 2022 - Apr 2023 ▪ Stuttgart, Germany

- Designed the "Routine" vehicle app, launched with the 2024 E-Class.
- Led desk research, analyzing user needs and competitive benchmarks.
- Developed preliminary HMI concepts, and created high-fidelity prototypes.

IBM UX Design Intern
Apr 2022 - Sep 2022 ▪ Stuttgart, Germany

- Redesigned the UX of the Storage Group feature (part of IBM Z mainframe management software), transforming engineering concepts into intuitive flows.
- Worked closely with PMs, engineers, and the Design team to enhance usability.
